I respectfully request that you protect my rights as the nations leaders should do and STOP the NAB from intruding in what I consider to be none of their business. I pay for my XM service as do over a million other people do, and we like our XM radio just the way it is. If we didn't like it we will be the one's to inform XM of our feelings and they will listen to us and make the the changes we want, because we the people are XM RADIO and NAB is not... I pray you will not let this mess go forth, everyday there is new story of MORE government intrusion into our lives, don't let this be another one of those discusting stories, take my word for it, AMERICA is getting damn tired of it. Sincerly Donald Valentine
